

# HEAT TREATMENT PREP SHEET AND HEAT SENSITIVE MATERIALS LIST

## USE AT YOUR OWN RISK!

- Do not use any pesticide bombs, foggers, sprays, dusts prior to heat treatment.
- Do not remove anything from treatment area except for sealed garbage to be permanently removed.\*
- Furniture and clutter must be pulled away from walls 4 to 6 inches.
- Excessive piles of linens or clothing should be sealed in bags, left in treatment area, and then washed afterwards.
- Unplug all electronics except major appliances (Example: Refrigerator).
- Any items (clothing, shoes, valuables) taken out on the day of heat treatment must be thoroughly inspected and sanitized before being reintroduced into the treated area.
- Permanently dispose of all trash and unwanted items before treatment.
- Vacuum or sweep up dust/pet hair as it impedes treatment and is hazardous to the equipment.
- Improperly secured pictures and posters that may blow down should be taken down and laid flat.
- Vinyl or faux wood blinds have a low heat tolerance; they can be taken down and laid flat to avoid warping.
- High power fans are used during this process; loose papers should be secured or weighted down.

## Heat Sensitive Items:

**ALL ITEMS MUST BE INSPECTED, SANITIZED, PLACED IN A SEAMLESS PLASTIC CONTAINER and either placed in refrigerator or removed from treatment area.**

- Candles, wax, crayons, lipstick and other meltable cosmetics
- Medicines and vitamins
- Software, records, CD's, tapes (audio and video)
- Vinyl and faux wood mini and vertical blinds
- Photographs in open areas\*
- Remote controls (TV, VCR)\*
- Computers (towers), unplugged and disconnected\*
- Soft vinyl items\*
- Aerosol cans, fire extinguishers, and other combustible items\*
- Musical instruments (may detune due to expansion and contraction)\*
- Cigarette lighters\*
- Pets, fish, fresh fruits and vegetables, chocolates, carbonated beverages, wines, liquors, and artificial sweeteners. In lieu of removal, small items may be placed in a refrigerator.
- Oil paintings, acrylics (art work), paintings, and pictures\*
- Antique furniture with finish or fragile glue points\*
- Other (In evaluating the treatment area, you may discover additional items that should be removed, such as irreplaceable or sentimental items that are of concern.)

*\*These heat sensitive items can be exposed to the treatment temperatures for a short duration to achieve a successful kill and then immediately removed from the treatment area to prevent any damage.*

## To Insure A Proper Treatment:

- \* Back-packs, purses, briefcases, textbooks and all non-essentials should be left IN the treatment area.
- \* Air flow is critical to this process, over-packed closets and rooms may not be able to be treated properly.
- \* Cement, tile, brick, block, rock, high-ceilings, and under bed spaces may require longer heat times and/or more equipment.
- \* Electrical outlets should be accessible and within 50 feet of treatment area.
